Do you already have a connection with Germany based on your studies, your continued education or your job? Would you like to brush up on your language skills, work for a German company in your country or expand your international network?

The Alumniportal Deutschland can help you to stay in touch with other Germany-Alumni as well as with your former university and funding organisation – and to establish new contacts with German institutions, companies, experts and potential cooperation partners. Use this opportunity to stay in touch with Germany, practise your language skills, make new contacts and develop your career.

The Alumniportal Deutschland offers German companies and institutions a direct interface with international experts. Here you will find well-trained employees in all parts of the world, with a German training background as well as local expertise and connections. You can contact them directly to present a specific offer or project.

Our virtual career and education fairs “Trained in GermanY” present a very simple way to recruit experts in many countries worldwide. And your informative profile on alumniportal-deutschland.org provides future employees and cooperation partners with an up-to-date way of contacting you.

As a university or foundation, you will find many of your former international students or scholarship-holders among the more than 100,000 members of the Alumniportal Deutschland.

The portal gives you an opportunity to add a strong, virtual component to your international alumni work. Contact your alumni and bring together students and alumni from different countries in groups and webinars. You could introduce yourself in an organisation profile on alumniportal-deutschland.org and present your services. Data protection and data security according to German law are guaranteed for all activities.
**COMPANIES & INSTITUTIONS**
